Key

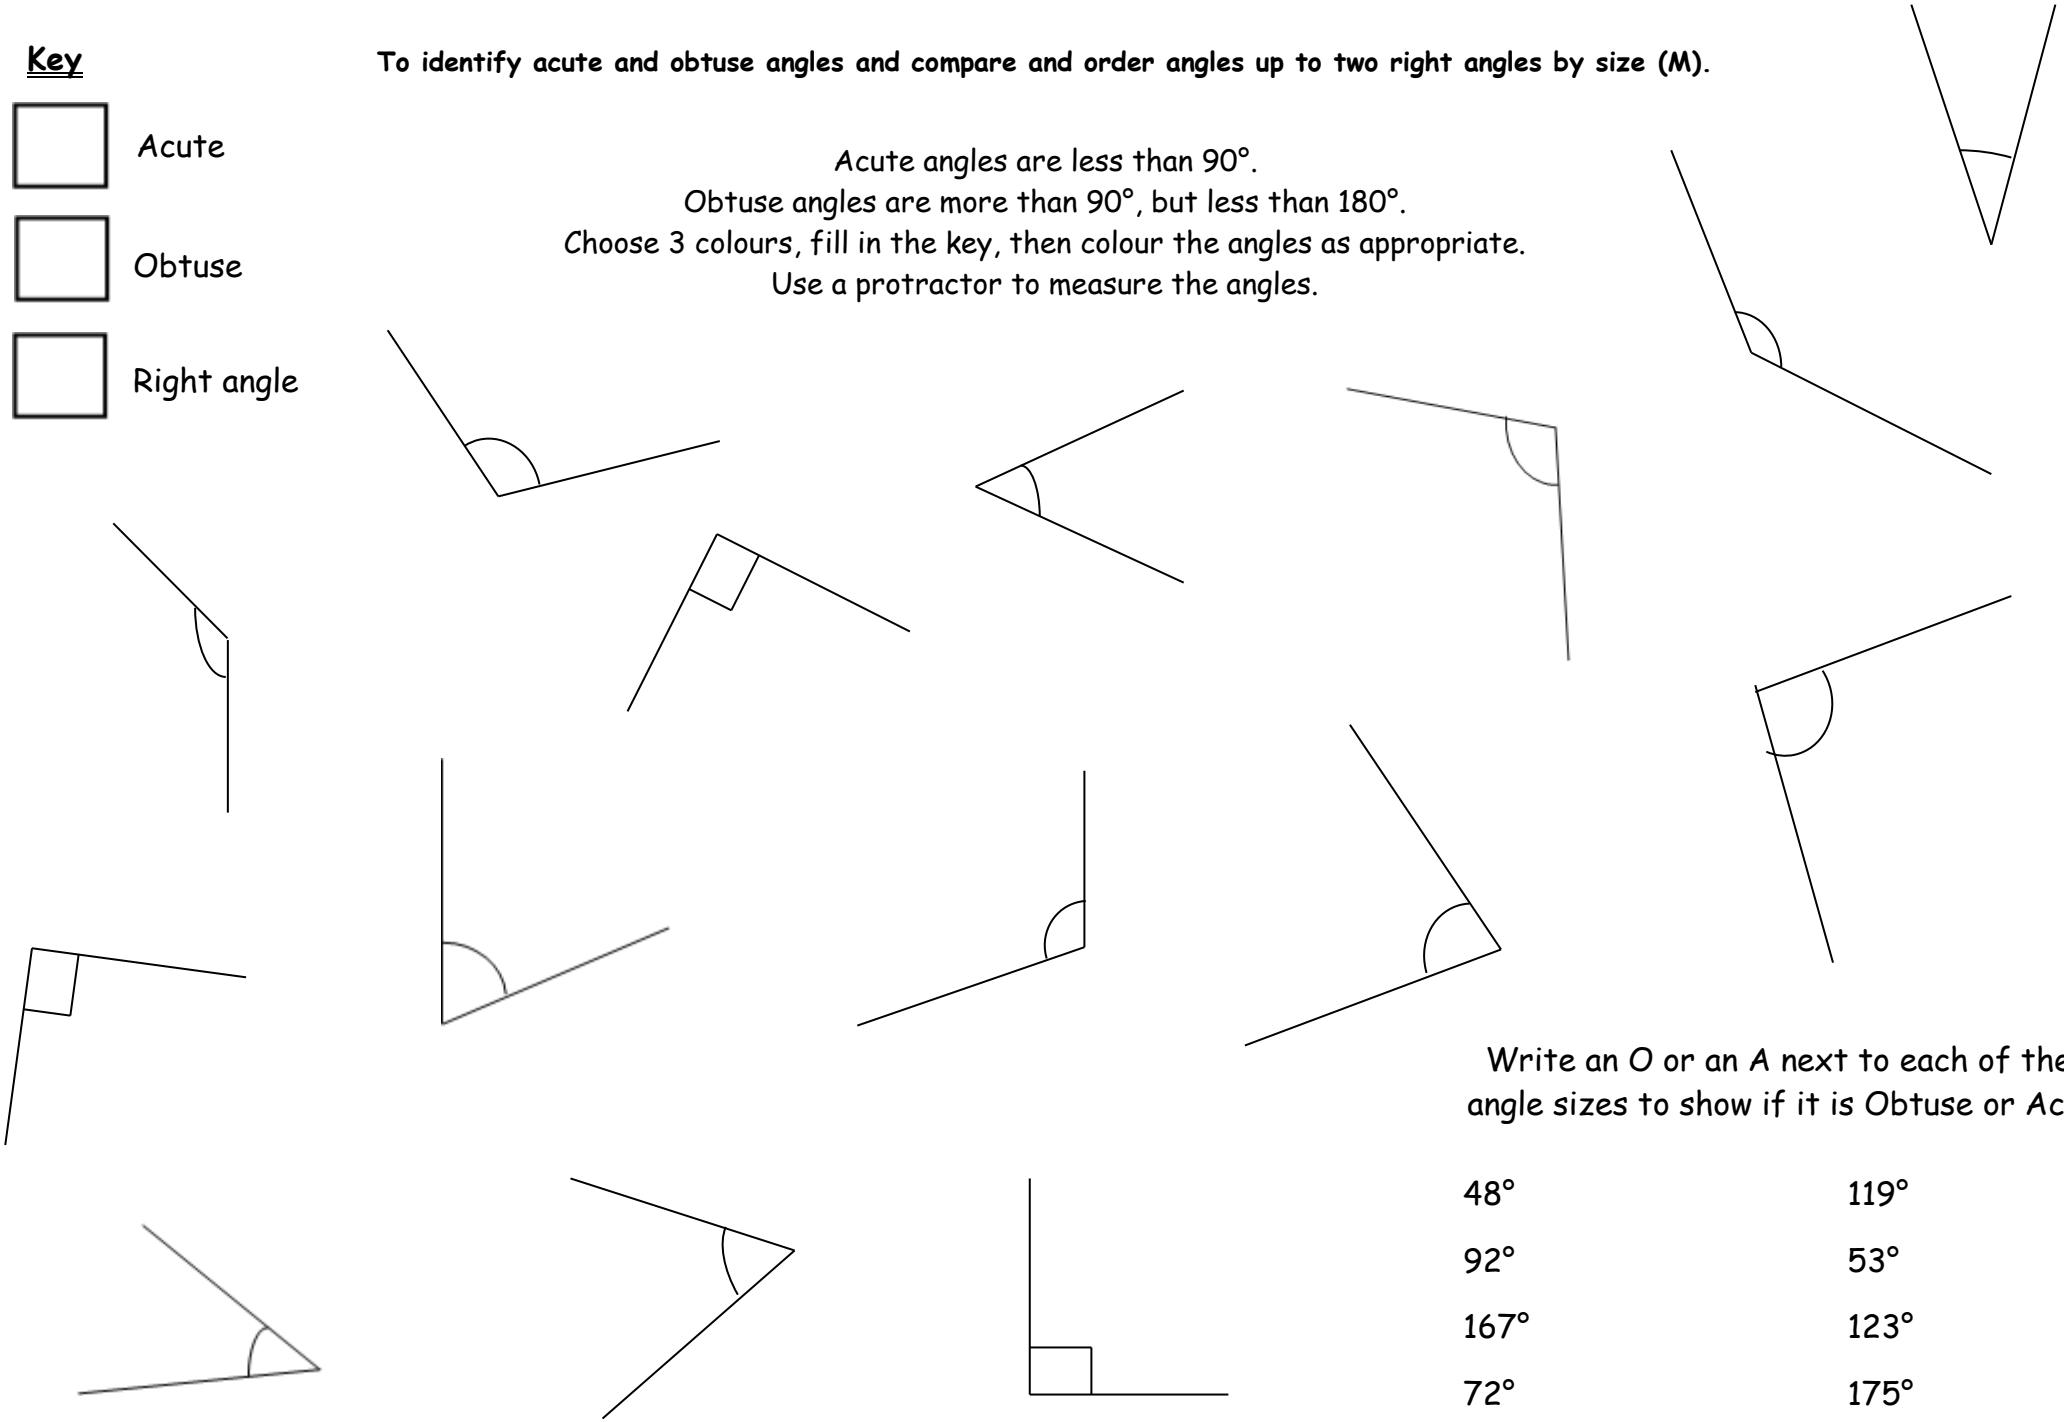
Acute

Obtuse

Right angle

To identify acute and obtuse angles and compare and order angles up to two right angles by size (M).

Acute angles are less than 90°.
Obtuse angles are more than 90°, but less than 180°.
Choose 3 colours, fill in the key, then colour the angles as appropriate.
Use a protractor to measure the angles.



Write an O or an A next to each of these angle sizes to show if it is Obtuse or Acute:

48°	119°
92°	53°
167°	123°
72°	175°
86°	35°
